Music 2708B: Music and Gaming

Winter 2021

Overview. An introduction to composing and producing music for video games using (i) library-based sounds, (ii) synthesis, (iii) various DSP tools, and (iv) industry-standard software for interactive sound systems (a/k/a middleware). Students will gain an understanding of the medium of gaming by exploring its (i) nonlinear musical framework as well as (ii) the ways game composition differs from other modalities.

Course Prerequisites: None. Unless you have either the prerequisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

**Please note: students with no background in music production may find it highly challenging to complete the final assignment for this course**

Course Format: Blended, synchronous and asynchronous

Course Materials. Students will require the following materials:

- Wwise (software): they provide a free license for students (i.e., a non-commercial license) on their website
- Access to a DAW for sound/music creation (Logic X, Pro Tools, Ableton, Fruity Loops, others)
- Access to a Sound Library (Splice, Loopcloud, Noiiz, Looperman [free], Forums, Free Repositories, Redbull Academy [free], etc)
- A cell phone camera, webcam, or a similar way to record yourself (for video journal assignments)

Please note: If students cannot access the above course materials, they will not be
able to complete assignments and will, thus, receive a grade of 0 in this course. The instructor and Western University are not responsible for the student’s ability to access the required course materials outlined above.

In addition to the above list of course materials, students will require the following text:

**Evaluation.** Coursework (40%); Final Project (60%)

Coursework (40%) breakdown:

- Video Journals 1-4 (15%)
- Assignment 1 (10%)
- Assignment 2 (15%)

**Learning Outcomes**

*Music and Gaming* examines foundational issues regarding composition and sound design for video games. To do so, this course will help students develop a fundamental literacy of game composition by building essential musical competencies in *hearing* and *applying* techniques used by game composers and sound designers. In order to effectively study video game composition we cannot limit ourselves to study of notes, rhythms, and sonorities — we must also learn how these compositions are formatted to meet specific creative and technical requirements. For instance, it is equally important for today’s game composers to create the music (and sound) heard within a game, as it is for them to design this music in a modular capacity which can be later triggered by user interactions. In addition, game composers incorporate routine production tasks such as sampling, synthesis, mixing, and mastering into their workflow as a matter of course. The game composition techniques covered throughout the course will reflect the requirements of this sophisticated culturally-embedded practice.

Today’s game composers, like most other music *creatives* today, work in a variety of ways, but they often prefer project studios or ad-hoc setups to execute the bulk of their work. In addition, during the COVID-19 pandemic, even more game composers are working from home in this way. As a result, this course will help students develop literacy and competencies in game composition using the tools favoured by today’s most relevant game composers, while also working with a similar environment as those who compose video game music as a professional craft. From this vantage point, students will develop the ability to think in a theoretical (and critical) capacity regarding what they hear and experience in video games. And, at the same time, students will learn how to approach this craft in a way which resembles how professionals actually work.

This course is highly *experiential*, and, thus, it draws from *practice-based* frameworks for learning. In this way, students will develop (i) their game composition skills *per se*, (ii) their ability to discuss and think critically about issues in game composition through direct exposure to the craft, and (iii) their knowledge of one of today’s most relevant culturally
embedded musical practices. As a result, this course will help students investigate the ways that the act of videogame composition differs from songwriting, pop music production, and art song.

**COURSE SCHEDULE**

**PART 1: GAME COMPOSITION METHODS**

**Week 1 - Music & Motion Media: Music & Interactive Systems**

- **FORMAT:** Pre-recorded Video Lecture, and Live Q&A — Thursday 7pm
- **Course Overview**
- **How does game composition differ from other creative modalities in music?**
- **Composing for interactivity, immersion, and engagement**
- **Assignment (due next Thursday, before 7pm): Video Game Sound Journal**
- **Readings:**
  - Travis Scott and Fortnite Present: Astronomical (available at: [https://www.youtube.com/watch?v=wYeFAiVC8qU](https://www.youtube.com/watch?v=wYeFAiVC8qU))
  - Roblox: Lil Nas X Concert (available at: [https://www.youtube.com/watch?v=tKkfE79Rtu8](https://www.youtube.com/watch?v=tKkfE79Rtu8))
  - Article by Complex: “My Night at the Travis Scott ‘Fortnite’ Concert” (available at: [https://www.complex.com/music/2020/04/travis-scott-fortnite-concert-review](https://www.complex.com/music/2020/04/travis-scott-fortnite-concert-review))

**Week 2 — Game Composition Methods — Intro to Cloud-based Music Production; Working with Sound Libraries**

- **FORMAT:** Pre-recorded Lecture & Interview
- **Readings:** Cloud-based Music Production - Introduction
- **Interview** with game composer and lead sound designer **George Spanos** of Digital Extremes
- **Assignment 1 Due:** Video Game Sound Journal

**Week 3 — Game Composition Methods — Synthesis**

- **FORMAT:** Pre-recorded Lecture, and Live Q&A — Thursday 7pm
- **Readings:** Cloud-based Music Production - Chapter 1
○ Synthesis and FX Creation
○ Synthesis and Melody/Harmony
○ Synthesis and the Creation of Percussion

Week 4 — Game Composition Methods — Sampling

● FORMAT: Pre-Recorded Lecture, Interview
● Interview with game composer Joshua Richardson of Tiny Titan (50m)
● Readings: Cloud-based Music Production - Chapter 2
  ○ Sampling and FX
  ○ Sampling and Melody/Harmony
  ○ Sampling and Percussion

Week 5 — Game Composition Methods — Mixing Digital Audio Compositions for Games and Motion Media

● FORMAT: Video Lecture, and Live Q&A — Thursday 7pm
● Readings: Cloud-based Music Production - Chapter 3
  ○ Mixing and Mix Parameters
  ○ Mixing Music for Inclusion within Interactive Systems
  ○ How to Mix, How to Hear

Week 6 — Game Composition Methods — Mastering Digital Audio Compositions for Games and Motion Media

● FORMAT: Video Lecture, Interview Video
● Interview with of Klei Videogames (50m)
● Readings: Cloud-based Music Production - Chapter 4
  ○ Hearing for Your Audience
  ○ Psychoacoustics and Sound Art
● Assignment 2 due: Game Composition*
  ○ Create a (minimum) 60s recording which could be used within a game. More details to follow.

Week 7 — READING WEEK — NO CLASS

PART 2: INTERACTIVE SOUND DESIGN AND COMPOSITION

Week 8 — Wwise: From Silence to Sound, & Designing a Soundscape

● FORMAT: Wwise Tutorial (See Owl)
● Wwise 101: Lesson 1 and 2
● Wwise: Video Journal #1 Due
● Discuss Final Project
● Instructor recommendation: begin final projects during week 8
Week 9 — Wwise: Understanding Game Synchs, & Creating Space
- FORMAT: Wwise Tutorial (See Owl), and Live Q&A — Thursday 7pm
- Wwise 101: Lesson 3 and 4
- Wwise: Video Journal #2 Due

Week 10 — Wwise: Understanding Audio Signal Flow, & Finalizing the Mix
- FORMAT: Wwise Tutorial (See Owl)
- Wwise 101: Lesson 5 and 6
- Wwise: Video Journal #3 Due

Week 11 — Wwise: Optimizing Your Game
- Format: Wwise Tutorial (See Owl)
- Wwise 101: Lesson 7
- Wwise: Video Journal #4 Due

Week 12 — Importing video into Logic X and GarageBand
- Format: Video Lecture, and Live Q&A — Thursday 7pm

Week 13 — FINAL PROJECTS DUE IN CLASS
- No Lecture
- Final project due before 8pm, April 1st

*note: Assignment 1, Video Journal Assignments, and the Final Project will be discussed in class in greater detail.

Description of Final Project

For their final projects, students will compose a music demo which could be imported and/or embedded into a videogame. The instructor will provide a 60s gameplay video clip from a commercially available videogame, and students will “score” this clip using a DAW of their choosing. Students will compose (i) sound effects, (ii) environmental/atmospheric sounds, and (iii) musical sounds which correspond to the visuals provided. More information about the Final Project will be made available during the term.

ADDITIONAL NOTES ON THIS COURSE

All students should read the following notes carefully in light of the current pandemic.

PART I: General Course Policies
i) **Grading Guidelines:** For the avoidance of doubt, the following rubric will be used for grading (as per the UWO Senate guidelines):

A+ 90-100 One could scarcely expect better from a student at this level

A 80-89 Superior work which is clearly above average

B 70-79 Good work, meeting all requirements, and eminently satisfactory

C 60-69 Competent work, meeting requirements

D 50-59 Fair work, minimally acceptable

F below 50 Fail

ii) **Academic Consideration for Student Absence:** Students will have up to two (2) opportunities during the regular academic year to use an on-line portal to self-report an absence during the term, provided the following conditions are met: the absence is no more than 48 hours in duration, and the assessment for which consideration is being sought is worth 30% or less of the student’s final grade. Students are expected to contact their instructors within 24 hours of the end of the period of the self-reported absence, unless noted on the syllabus. Students are not able to use the self-reporting option in the following circumstances:

- for exams scheduled by the Office of the Registrar (e.g., December and April exams)
- absence of a duration greater than 48 hours,
- assessments worth more than 30% of the student’s final grade,
- if a student has already used the self-reporting portal twice during the academic year

If the conditions for a Self-Reported Absence are not met, students will need to provide a Student Medical Certificate if the absence is medical, or provide appropriate documentation if there are compassionate grounds for the absence in question. Students are encouraged to contact their Faculty academic counselling office to obtain more information about the relevant documentation.

Students should also note that individual instructors are not permitted to receive documentation directly from a student, whether in support of an application for consideration on medical grounds, or for other reasons. All documentation required for absences that are
not covered by the Self-Reported Absence Policy must be submitted to the Academic Counselling office. For the Western University policy on Consideration for Student Absence, see:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic_Consideration_for_absences.pdf

and for the Student Medical Certificate (SMC), see:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf

Special Note for Covid-19-related Situations:

As a guideline, if a student has been contacted by the Middlesex-London Health Unit (MLHU) to self-quarantine due to a Covid-19-related situation, then the Self-Reported Absence system is not to be used to report this absence or to request an academic accommodation. The student should contact the Academic Counselling office as soon as they are notified.

In general, students are advised to not self-determine when to self-isolate. Unless directed by the MLHU students should go about their business as usual. But if a student chooses to self-isolate due to a suspected Covid-19-related situation while waiting to receive direction from the MLHU then the student is directed to contact the Academic Counselling office as soon as possible for further direction on receiving accommodation consideration.

iii) Academic Consideration for Missing Work: In cases where students are unable to submit work due to medical illness or compassionate grounds, if an online self-reported absence is submitted, or if appropriate supporting documentation is submitted to the Associate Dean’s office, and the accommodation is granted, then the missed assessments may be rescheduled or discounted in the calculation of the final grade for the course, at the discretion of the instructor. If neither a self-reported absence nor an appropriate supporting document is submitted to the appropriate office, then the missed assignments will receive a grade of zero.

iv) Academic Offences: Submission of work with which you have received help from someone else (other than the course instructor or TA) is an example of plagiarism, which is considered a major academic offence. Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, as found at:
v) **Mental Health & Wellness:** Students that are in emotional/mental distress should refer to the Health and Wellness at Western page (https://www.uwo.ca/health/) for a complete list of options about how to obtain help or to go to the Wellness Education Centre located in UCC room 76. Students in crisis in need of immediate care are directed to go directly to Student Health Services in UC11 or to click on the green “I Need Help Now” button on the Health and Wellness page above.

vi) **Accommodation for Students with Disabilities:** Students work with Accessible Education Western (AEW, formerly SSD) which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The accommodation policy can be found here: [https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation_disabilities.pdf](https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation_disabilities.pdf)

vii) **Religious Accommodation:** Students should consult the University's list of recognized religious holidays, and should give reasonable notice in writing, prior to the holiday, to the Instructor and an Academic Counsellor if their course requirements will be affected by a religious observance. Additional information is given in the Western Multicultural Calendar. [http://multiculturalcalendar.com/ecal/index.php?s=e-univwo](http://multiculturalcalendar.com/ecal/index.php?s=e-univwo)

---

**Part II. Covid-19-related Issues**

i) **Contingency Plan:** In the event of a COVID-19 resurgence during the course that necessitates the course delivery moving away from face-to-face interaction, all remaining course content will be delivered entirely online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on OWL for students to view at their convenience). The grading scheme will not change. Any remaining assessments will also be conducted online at the discretion of the course instructor.
ii) **Recording of Online Activities:** All of the remote learning sessions for this course will be recorded. The data captured during these recordings may include your image, voice recordings, chat logs and personal identifiers (name displayed on the screen). The recordings will be used for educational purposes related to this course, including evaluations. The recordings may be disclosed to other individuals participating in the course for their private or group study purposes. Please contact the instructor if you have any concerns related to session recordings.

Participants in this course are not permitted to record the sessions, except where recording is an approved accommodation, or the participant has the prior written permission of the instructor.

iii) **Online Etiquette:** Some components of this course may involve synchronous online interactions. To ensure the best experience for both you and your classmates, please honour the following rules of etiquette:

- Use your computer and/or laptop if possible (as opposed to a cell phone or tablet)
- “Arrive” to class on time
- Ensure that you are in a private location to protect the confidentiality of discussions in the event that a class discussion deals with sensitive or personal material
- To minimize background noise, kindly mute your microphone for the entire class until you are invited to speak, unless directed otherwise
- Unless invited by your instructor, do not share your screen in the meeting
- Be prepared to turn your video camera off at the instructor’s request if the internet connection becomes unstable

The course instructor will act as moderator for the class and will deal with any questions from participants. To participate please consider the following:

- If you wish to speak, select the blue “raise hand” function and wait for the instructor to acknowledge you before beginning your comment or question.
- Kindly remember to unmute your microphone and turn on your video camera before speaking.
- Self-identify when speaking.
• Kindly remember to select the “raise hand” function again to lower your hand, mute your mic and turn off your video camera after speaking (unless directed otherwise).

**General considerations of “netiquette”:**

• Keep in mind the different cultural and linguistic backgrounds of the students in the course.

• Be courteous toward the instructor, your colleagues, and authors whose work you are discussing.

• Be respectful of the diversity of viewpoints that you will encounter in the class and in your readings. The exchange of diverse ideas and opinions is part of the scholarly environment.

Note that disruptive behaviour of any type during online classes, including inappropriate use of the chat function, is unacceptable. Students found guilty of “Zoom-bombing” a class, or of other serious online offenses, may be subject to disciplinary measures under the Code of Student Conduct.
