Course Information: This course comprises a study of the chordal vocabulary, voice-leading procedures, and harmonic syntax in music of the late-nineteenth and early-twentieth centuries. Building on harmonic concepts introduced in core (1st and 2nd year) theory courses, this course will explore harmonic procedures on the local level and in large-scale relationships through detailed consideration of harmonic function and the relationship between function and aspects of voice-leading and transformation. Detailed analysis as well as written exercises in class and on assignments will form the basis of this study.

Course Times and Rooms:
Monday 2:30-3:20PM  TC201
Thursday 1:30 - 3:20PM TC201

Instructor: Troy Ducharme, TC231
(519)661-2111, ext. 87716
e-mail: tducharm@uwo.ca

Office Hours: By appointment, in-person and/or virtual. The instructor will circulate his schedule and times may be booked by e-mail.

Learning Objectives:

1. The student will become familiar with and learn to draw conclusions about harmonic usage and structure using a variety of models for harmonic relationships, including models of harmonic function, progression, and prolongation, as well as models of transformation.

2. The student will come to understand the relationship between voice-leading and transformation in abstract models and as realized in excerpts and entire pieces from the repertoire.

3. The student will undertake reconsideration of a variety of harmonic materials - chord types, chord usages, sequences, and other idioms - studied in earlier courses for the sake of review and to achieve a deeper understanding of the potential in those materials.

4. The student will develop this knowledge in short exercises accompanying each online lecture, and in a collection of assignments that serve as practice. They will demonstrate their independent grasp of the concepts and the ability to apply them in a final project consisting either of a detailed analysis of a significant work or of an original musical work of substantial proportions and complexity that makes deliberate and thoughtful use of the harmonic concepts studied in the course.
**Course Requirements:**
1) Regular attendance and participation in class meetings
2) Completion of preparatory exercises in-class and/or online
3) Three (3) assignments.
4) A Final Project in Analysis or Composition.

**Required Texts and Materials:**
1) Scores as posted to OWL or made available through library reserves;
2) Handouts detailing topics and posted to OWL;
3) Assignment Solutions and Commentary as posted after each assignment is completed;
4) Manuscript Paper, sharp pencils, ruler, and eraser - or the equivalent of these in electronic equipment - will be required to complete assignments and projects.
5) Scanner or camera for electronic submission of materials may be required.

**Details of Evaluation:**

**Exercises** will be completed at the beginning, during, and/or the end of each in-class lecture. They may also be completed outside of class time. These will be submitted either in class on paper or using the Tests and Quizzes tool on OWL. These exercises will alternate between and/or combine voice-leading exercises, analysis exercises, and concept comprehension questions. Feedback will be provided by the instructor, but only a grade for participation (satisfactory completion and submission) will be recorded, since solutions for most exercises will be provided as part of lecture materials.

The exercises will be graded and returned as they are submitted. Each exercise will close – no further submissions allowed – (a) 3 weeks after the lecture of which they were a part, or (b) the final day of classes: **Thursday, 8 December**; whichever is later. With two such exercises (on average) per lesson, but with some of them being duplicated as pre- and post-lecture exercises, the student will be expected to complete approximately 20 of them.

**Assignments** will be completed individually and will combine part-writing, analysis, and commentary. Work towards the **Final Project** will also be submitted as part of each assignment. Each assignment is worth 7%, but with the assignment on which the student achieves the highest grade being worth an additional 4% (total of 11%).

Due dates for assignments are as follows:
- Assignment 1. Thursday, 22 September
- Assignment 2. Thursday, 13 October
- Assignment 3. Thursday, 10 November
The **Final Project**, worth 60% of the final grade, will be developed in consultation with the instructor and will present either:

a) an in-depth harmonic analysis of a significant piece of late Romantic music, approved by or provided by the instructor. The analysis will include an annotated score, musical examples including voice-leading reductions and models as appropriate, tables, graphs, and explanatory prose.

**or**

b) a composition for an appropriate ensemble (String Quartet, Piano Trio, etc.) in a 'large-form' (Sonata, Compound Ternary, Sonata-Rondo, etc.) utilizing harmonic principles and materials discussed throughout the term.

**Notes:**

i. **Course Prerequisites:** Music 2651A/B or the former Music 2650A/B. Unless you have either the prerequisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

ii. **Grading scale:** A+=90-100%, A=80-89%, B=70-79%, C=60-69%, D=50-59%, F=0-49%.

iii. **Academic Consideration for Student Absence & Missing Work (≥10%):** Students are responsible for making up any missed classes or assignments as soon as possible. The University recognizes that a student’s ability to meet their academic responsibilities may, on occasion, be impaired by medical illness. Illness may be acute (short term), or it may be chronic (long term), or chronic with acute episodes. The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, in order to ensure fairness and consistency for all students, academic accommodation for work representing 10% or more of the student’s overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet their academic responsibilities.

   Documentation shall be submitted, as soon as possible, to the Office of the Associate Dean, Undergraduate (TC210), together with a request for relief specifying the nature of the accommodation being requested. Students are directed to read the Senate policy on accommodation for medical illness at the following website for further details regarding requirements and procedures for the supporting documentation:

   [https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf](https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf)

   Whenever possible, students who require academic accommodation should provide notification and documentation in advance of due dates, examinations, etc. Students must follow up with their professors and their Academic Counselling office in a timely manner.

iv. **Academic Consideration for Missing Work (<10%):** In cases where students miss work that is worth less than 10% of the total course grade (ie. two or fewer assignments) due to medical illness or compassionate grounds, if documentation is voluntarily submitted to the Associate Dean’s office and the Associate Dean grants an accommodation, then the missed assignment(s) or quiz(zes) will be discounted in the calculation of the final grade for the
course. If documentation is not voluntarily submitted then the missed assignment(s) will receive a grade of zero. Students who have been denied accommodation by an instructor may appeal this decision to the Associate Dean’s office but will be required to present appropriate documentation.

v. Academic Offences: Submission of work with which you have received help from someone else (other than the course instructor or TA) is an example of plagiarism, which is considered a major academic offence. Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, as found at: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergraduate.pdf

vi. Mental Health & Wellness: Students that are in emotional/mental distress should refer to the Health and Wellness at Western page (https://www.uwo.ca/health/) for a complete list of options about how to obtain help or to go to the Wellness Education Centre located in UCC room 76. Students in crisis in need of immediate care are directed to go directly to Student Health Services in UC11 or to click on the green “I Need Help Now” button on the Health and Wellness page above.

vii. Gender-Based and Sexual Violence: Western is committed to reducing incidents of gender-based and sexual violence and providing compassionate support to anyone who has gone through these traumatic events. If you have experienced sexual or gender-based violence, either recently or in the past, you will find information about support services for survivors, including emergency contacts at https://www.uwo.ca/health/student_support/survivor_support/get-help.html. To connect with a case manager or set up an appointment, please contact support@uwo.ca or call 519 661-3568.

viii. Accommodation for Students with Disabilities: Students work with Accessible Education Western (AEW, formerly SSD) which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The accommodation policy can be found here: https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation Disabilities.pdf

ix. Religious Accommodation: Students should consult the University’s list of recognized religious holidays, and should give reasonable notice in writing, prior to the holiday, to the Instructor and an Academic Counsellor if their course requirements will be affected by a religious observance. Additional information is given in the Western Multicultural Calendar. http://multiculturalcalendar.com/ecal/index.php?s=e-univwo

x. Contingency Plan: Although the intent is for this course to be delivered in-person, the changing COVID-19 restrictions may necessitate some or all of the course to be delivered online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on OWL for students to view at their convenience). The grading scheme will not change. Any assessments affected will be conducted online as determined by the course instructor.
