Junges Vokalensemble Hannover was founded in 1981 by its artistic director Prof. Klaus-Jürgen Etzold. Many of the choir members are active and former students of the University of Music, Drama and Media Hannover, but other professions are represented as well, and all singers are united in their wide choral experience and their joy in singing challenging works together. In addition to sacred and secular a cappella music of the 15th century until today, the choir performs cantatas, masses, oratorios, and passions. The choir has recorded sixteen CDs and performed several world premieres of contemporary compositions. The choir has toured to Egypt, Mexico, Russia, Israel, China, Venezuela, Turkey, the Philippines, Singapore, USA, South Africa and Namibia and successfully participated in several international choir competitions.
